

final

WILLIE

WAY BACK WHEN I TURNED THREE
I WISHED TO TOUCH A STAR
SO I CLIMBED A TREE
I STILL COULDN'T REACH
SO I MADE A PLAN
ID LEARN TO BUILD ROCKETS
WITH MY OWN TWO HANDS

THIS BODY IS LITTLE
THIS EARTH IS SO SMALL
WHY WOULD I EVER THROW A BALL AT A WALL
I WISHED TO THINK BIGGER, AND THAT I DID
BUT I GUESS I NEVER LEARNED TO LIVE LIKE A KID

THEN ONE DAY I CELEBRATED EIGHT
ACCEPTED TO COLLEGE,
TO BUILD SOMETHING GREAT
LEFT MY TRAINING WHEELS
TO THE KIDS NEXT DOOR
DIDN'T THINK I'D NEED THEM
NOW THAT I HAD SO MUCH MORE

THIS BODY IS LITTLE
THIS EARTH IS SO SMALL
WHY WOULD I EVER THROW A BALL AT A WALL
I WISHED TO THINK BIGGER, AND THAT I DID
BUT I GUESS I NEVER LEARNED TO LIVE LIKE A KID

~~NOW I DESIGN THE ROCKETS/SPECIFICSOR~~
~~I DREAMED OF AS A KID~~
NOW I'VE BUILT A DOZEN SHUTTLES ROCKETS AND STARSHIPS
UNDERSTANDING THE PHYSICS
OF JET PROPULSION AND BACKFLIPS
GOT A BIKE IN MY OFFICE
A GIFT I DONT FORGET
I KNOW EXACTLY HOW IT WORKS
STILL HAVEN'T TRIED IT YET

THIS BODY IS LITTLE
THIS EARTH IS SO SMALL

WHY WOULD I EVER THROW A BALL AT A WALL
I WISHED TO THINK BIGGER, AND THAT I DID
BUT I GUESS I NEVER LEARNED TO LIVE LIKE A KID

WHAT DOES IT MEAN TO BE A KID IN A CANDY STORE
HOW DOES IT FEEL TO SELL SEASHELLS ON THE SEASHORE
I KNOW HOW IT FEELS TO BE LIVING A DREAM
~~BUT I CANT IMAGINE THE JOY OF A TWEENLOL~~

THIS BODY IS LITTLE
THIS EARTH IS SO SMALL
WHY WOULD I EVER THROW A BALL AT A WALL
I WISHED TO THINK BIGGER, AND THAT I DID
BUT I GUESS I NEVER LEARNED TO LIVE LIKE A KID

Tab 6

WILLIE'S SONG

Verses should be about willie's life and what about his life is awesome

The chorus should undermine that awesomeness and talk about how he wishes for the other little things that are also awesome

Live a little

OHHHHHH maybe its like No Time to Play or Work Hard Play Hard

Like okay lets get serious Remus, this is your first big task, you can't just play around. Maybe this is why willie is first person on the team

VERSES: willie has an incredible awesome life that he's proud of - brag, wonder

CHORUS: but hes never done this one thing - undercut the bragging, also wonder

STRUCTURE

Verse One: Three Years Old, climbing trees, dreaming of the stars, he is a child Building rocket ships with his hands.. He belongs to the neighborhood still. This verse should feel warm and funny and innocent. Training wheels

WAY BACK WHEN I TURNED THREE
I WISHED TO TOUCH A STAR
SO I CLIMBED A TREE
I COULDN'T REACH HIGH ENOUGH
SO I MADE A PLAN
I'D LEARN TO BUILD ROCKETS
WITH MY OWN TWO HANDS

CHORUS

This body is little

This earth is so small

Why would i ever throw a ball at a wall

I wished to think bigger, and that I did

But i guess I never learned to live like a kid

VERSE TWO: Age 8, gets into college, closer to the stars, but left home and the tirke, his younger brother took his training wheels and everyone else graduate to a biek Everyone on his street is learning to ride bikes that summer and he's moving into a dorm. He's excited and proud is def diff from other kid Willie doesn't frame it as loss just yet

THEN ONE DAY I CELEBRATED EIGHT

ACCEPTED TO COLLEGE,

TO BUILD SOMETHING GREAT
I LEFT MY TRAINING WHEELS
TO THE KIDS NEXT DOOR
DIDN'T THINK I'D NEED THEM
NOW THAT I HAD SO MUCH MORE

CHORUS

**This body is little
This earth is so small
Why would i ever throw a ball at a wall
I wished to think bigger, and that I did
But I guess I never learned to live like a kid**

VERSE 3: AT NASA? The achievements are almost absurd at this point.
But somewhere in his office there is a bike he was gifted? President?
Maybe remus gifted. He still hasn't learned.

~~NOW I DESIGN THE ROCKETS/specifies~~OR

~~I DREAMED OF AS A KID~~

Now i've built a dozen shuttles rockets and starships

UNDERSTanding the PHYSICS

OF jet propulsion and backflips

GOT A BIKE IN my office

A gift i dont forget

KNOW EXACTLY HOW IT WORKS

still HAVEN'T TRIED it yet

CHORUS: what riding a bike would represent, doing something for the sake of being a kid and having a childhood, for joy and laughter, not intellect

This body is little

This earth is so small

Why would i ever throw a ball at a wall

I wished to think bigger, and that I did

But i guess I never learned to live like a kid

BRIDGE: kohls story moment

What does it mean to be a kid in a candy store

How does it feel to sell seashells on the seashore

I know how it feels to be living a dream

~~But i cant imagine the joy of a tweenLOL~~

CHORUS

This body is little

This earth is so small

Why would i ever throw a ball at a wall

I wished to think bigger, and that I did

But i guess I never learned to live like a kid

VERSE one : at three

Way back when i celebrated turning three
To get closer to the moon was the only reason I ever climbed a tree
I wished I was taller so I made a plan
I'd build a little rocket ship with my own two hands

Verse two: at 8

CHORUS

Here comes resposbilitity
_____ cars? bars
The only time I play pretend
Is wishing upon the stars
Willie with (OR imagine me), a space suit on
An astronaut on mars

BRIDGE:

Verse: now im practically a teen

Age 3: Climbing trees to reach the moon, building rocket ships — he's a weird ambitious little kid but still a kid

Age 8: Got into college. Never learned to ride a bike. Still needs training wheels, everyone at school graduated to a bik. OR MAYBE like he's never gone trick or treating OR Ice cream truck, OR watching cartoons

Teen: He's at NASA accomplished everything to be prestigious. Riding a bike seems so trivial to being an astronaut or something

Chorus. every kid learned to ride a bike and he never did. Or he still has training wheels

- Maybe its like third wheeling his mom and dad idk

,

Love the idea from ciclans' story: being a kid with nothing to prove, just existing in a store with your mom, picking something dumb out because you can.

I might be short, you might be tall

But when I trip, I barely fall

I get to look up, while you look down

And if I wait

Just long enough

the sky puts on its

starry gown

Tab 4

1. “Pale Blue Dot” - Willie
 - a. Think “brain stew”
 - b. things are so unknown to children, to what degree is everyone at nasa full of or not full of childlike wonder?

•

WILLIE:

UGH Remus, jeez stop being so... cynical. We are literally in the business of things that don't matter yet. Its not gonna matter if you fail or succeed, but you were just given a buttload of money to do something COOL. You're not making weapons for the military, or funding new surveillance techniques for the government, you're making a record.

small things can hold enormous meaning if you choose to see them that way is kinda the thesis here

WILLIE: Oh my god, will you stop being so emo?

REMUS: Hey

WILLIE: I need you to have some perspective ok.

REMUS: Wow, a PREtween is really gonna tell ME to have some perspective.

WILLIE: Cheap shot Remu. Look...

Verse 1

I might be short, you might be tall

But when I trip, I barely fall

I get to look up, while you look down

And if I wait

Just long enough

the sky puts on its

starry gown

Punky chords

Verse 2:

You say I'm little, I say you're old
It's fine when you're young to search for gold
You have a Rolex on your left wrist
But as you walk
 Down the street
 That puts you on a
 thiefs hit list

CHORUS

**One small atom, split its core
Use that heat to travel more
One small atom, sparks the way
So we can wonder, dream/roam, and play**

VERSE 3

Nothing's bigger than a life
So maybe try and give this everything give this all you've got
Our words cut deeper than a knife
So tell us
 How it feels to live
 As light shines on
 Bla bla bla
 a pale blue dot

Verse 3 try 1

I might be smart, you might be dumb

But given the chance, you really should just have some fun

I've got the math, you've got the nerve

Together we could

show that life

Is full of laughs and

love, and verve

Bridge???

CHORUS

One small atom, split its core

Use that heat to travel more

One small atom, sparks the way

So we can wonder, dream/roam, and play

Chorus

- Ideas:
 - Should be willie getting lost in something so small
 - The sun , a star, some paint, a photograph, each pixel, note in a song
 - Looking at math maybe? Or like science
 - What does willie actually do at nasa
 - Physics equations

- HYDROGEN ATOM

One small atom, split its core

Use that heat to travel more

One small atom, sparks the way

So we can wonder, dream/roam, and play

Tab 5

1. **b plot character (willie) i am or charm song**

- a. Childlike wonder, longing for a childhood?
- b. pale blue dot is they don't see what i see
- c. our voice without our face
- d. more interesting is our sun.
- e.

SCENE 4

Willie and Remus talk about the record. Remus doesn't know if he can or should take up the task. He doesn't feel qualified. He's already heavily bullied. And it's also not the kind of stuff he wants to be making anyway.

Song #4 - Pale Blue Dot

Willie: Charm Song probably about loving stars and space and art and creativity and drawing and painting etc. loving science is also about loving art and music?

- pale blue dot
- what does it mean to love science?
- how can you love something so sterile to something else
- is fascination love?
- why do we care so much about space
- a childlike fascination
- things are so unknown to children, to what degree is everyone at nasa full of childlike wonder?
